

# 8ft Diameter TRICKLE Tanks

Equinox 8' diameter (2440 mm) tanks provide large volume capacities. All are buriable to 7' depth (2135 mm) from the top of the tank, and are provided with lifting lugs. Holding, Trickle, and Pump-Out tanks are provided with 4" (102 mm) ABS pipe inlets. For water storage tanks, specify sizes of vents, fill and outlet openings. All tanks come complete with a 24" (610 mm) diameter lid and 12" (305mm) bonded sleeve. A 24" (610) diameter sleeve is available to a maximum length of 7' (2135 mm), at an additional cost. Tanks that require separate chambers are available, (internal dividers carry an additional cost). Tanks are also available for special applications. Please contact factory for details.
