LP 2000 B

e-Equinox INDUSTRIES
the tank experts
FIBERGLASS • POLYETHYLENE • SECTIONAL • COMMERCIAL

Polyethylene is an FDA (Food and Drug approved) material.
Polyethylene is resistant to chemical and sewage gas corrosion.
Pigmented resins retard ultra violet degradation.
Pigmented resins retard the rate of algae growth.

Low profile tanks are manufactured using an FDA approved Polyethylene certified for potable water. Polyethylene is an excellent material for sewage tanks as it is resistant to deterioration from chemicals found in sewage. Black polyethylene protects water storage tanks from algae growth and provides additional U.V. protection which extends the life of the tank.

Polyethylene Low Profile Below Ground Tanks — LP 2000B
